

We create digital products.

Working Student up to 19hrs/Week (f/m/d)

Start November 2020

Full Stack PHP Developer

We are a young Tech-Startup from Dresden. Our purpose is to digitalize and redesign existing products and services for companies. Our recently developed image-based communication tool *Tucatap* revolutionizes customer interaction and communication in the B2B sector. For the further development and support of our SaaS solution, we need your help!

Ideal candidate profile:

- Bachelor Degree in Computer Science or equivalent qualification
- Fluency in both written and spoken English, German is a plus
- Experience with the development platform GitHub
- Experience with Linux-based system required
- Willingness to learn and independent working style is appreciated

Requirements:

Backend

- Good to advanced knowledge in development with PHP 7
- Profound knowledge with the modern framework Symfony
- Solid experience in creating and structuring of Web-API supported systems
- Good knowledge of SQL Databases and MySQL
- Experience with message queues & dockers is of advantage

Frontend

- Good knowledge in Javascript (ES6+ bis 2019)
- Knowledge of development with VueJS or another equivalent framework (Angular, React, Polymer) required
- Experience with asset pipelines (Webpack, Encore) is beneficial

Your Benefits:

- Fair reward
- A young and dynamic team with flat hierarchies
- Possibility to work from home or remotely
- Development possibilities for personal and professional growth

Let's get in touch! We are looking forward to receive your application until 23.10.2020.
